

# Without You

## The Afterimage

I know it's over now  
I can't believe we're through  
If this is what you need  
There's nothin' I can do

### REFRAIN

But where am I to go  
What have I to choose

Rememberin' our days  
Just makes me want to cry  
We tried so hard I know  
But still we said goodbye

### REFRAIN

So where am I to go  
What have I to choose  
When I built my world around you

### CHORUS

Gotten used to see your smile  
Hear you whisper late at night  
Now, I've nothin' left to lose  
'Cause I know I'm without you

If only fate were kind  
Then I'd be holding you  
And we'd be like before  
But destiny was cruel

### REFRAIN

So where am I to go  
And what have I to choose  
When I built my world around you

[Repeat CHORUS]

Hoh  
Without you, woh

### BRIDGE

Without you, there's no sunshine  
Without you, only rain  
And if there is tomorrow  
I hope to ease my pain  
Ease my pain

[Repeat CHORUS]

I know it's over now
