

Keep Moving On

The Aggrolites

When you set your goals You always aim high Shooting for the stars
And reaching for the sky Remember what goes up Must always
come down You've seen so many dreams come crashing to the ground
What you give that's what you get that what they say And you
give it all you got everyday When any others would surrender you
refuse You'll find the more you have to give the more you lose
Lady luck always fails to deliver And you don't think you'll
be able to forgive her Somewhere down the line we fell off track
But we've come to far to turn back Keep it moving on And you
know well see it through Keep the feelings strong And well make
our dreams come true someday We move ahead as long as we know
what is right We know well do it if we keep our goal in sight The
struggles been oh so hard and so long But if we know were right
then will it all go wrong Lady luck always fails to deliver
And you don't think you'll be able to forgive her Somewhere
down the line we fell off track But we've come to far to turn
back Keep it moving on You know that we will see it through Keep
the feelings strong And well make our dreams come true someday
Keep it moving on You know that we will see it through Keep the
feeling strong And well make our dreams come true Keep it moving
on Keep the feeling strong Keep it moving on Keep the feelings
strong
