

True Love

The Airborne Toxic Event

My heart, my head
My head, my head
This blood, this bed
This bed, this bed

If I can feel the angels falling down around my head
Their bodies spinning endlessly in circles 'round this bed
'Cause it's true love, 'cause it's true love
'Cause it's true love, 'cause it's true love

'Cause it's true love, 'cause it's true love
'Cause it's true love, 'cause it's true love

And you don't know what to do sometimes
and you're just lost there for days
And everyone tells you just calm down
remember what she said

And she's standing by the record store
She's got her whole life in her hands
She says she's crazy man but I'm crazy too
And I'm crazy for what we had

It was true love, it was true love
It was true love, it was true love

It was true love, it was true love
It was true love, it was true love

It was true love

And everyone told me that I was wrong
But I thought that it wasn't true
And everyone told me that I was wrong
But I'm going home with you
'Cause I was there

And I tore myself apart that night
Just wondering where you had gone
With the [?] in the alleyway
And all the angels on your lawn

They're standing here in front of me
You got the whole life in your hands
I know I'm crazy love, but you're crazy too
You're the only thing in my prayers

'Cause it's true love, 'cause it's true love
'Cause it's true love, 'cause it's true love

'Cause it's true love, 'cause it's true love
'Cause it's true love, 'cause it's true love

'Cause it's true love

And everyone told us just go find
a [?] song

But they don't know a god damn thing about us
Or a thing about holding on
'Cause we were wrong
