Give 'Em My Love

The Alan Parsons Project

Through all the years of wasted time
The twists, the turns, the wrongs, and the rights
Was it all to lead to where you lie?
How long till the angels fly?

Holding on until the break of day
Letting go I pray you'll always save
Every soul you see along the way
When you're gone
Give 'em my love
Give 'em my love

Beyond the roses and the cards
What you mean to everyone
Spread the love that's what you'd say
You never know who you could save
Your memory is strong
And you won't stop living

Holding on until the break of day
Letting go I pray you'll always save
Every soul you see along the way
When you're gone

No more patience
No more time
No more reason
No more rhyme
Every step along the way
Give 'em my love
Give 'em my love
