

# One Note Symphony

The Alan Parsons Project

The world is spinning endlessly  
It hums the healing frequency  
Seven point eighty three  
The one note symphony

One voice, one mind, one melody  
One world, one love, one frequency  
One heart in synchronicity  
This is the one note symphony

This is the sound of energy  
Traveling through the galaxy  
Into eternity, a one note symphony

One voice, one mind, one melody  
One world, one love, one frequency  
One heart in synchronicity  
This is the one note symphony

Oceans of sound and ancient beats  
Creating waves of unity

We are a choir that sings  
We are a choir that sings  
The one note symphony

One voice, one mind, one melody  
One world, one love, one frequency  
One heart in synchronicity  
This is the one note symphony
