

Falling From The Sun

The Album Leaf

If the sky is burning, when the clouds move in
We come so close, when we just miss
We can't see the start, we can't hide the end

Find our way to fall
Find our way to fall
Find our way to fall
Find our way to fall

I can't see between, I can't find the need
We come so close, when we just miss

Find our way to fall

We can't see the start, we can't hide the end
When the sky is burning, if the clouds move in

Find our way to fall
Find our way to fall
Find our way is
Find our way
Find our way to fall

We can't see the start, we can't hide the end
When the sky is burning, if the clouds move in

Find our way to fall
Find our way to fall
Find our way is
Find our way
Find our way to fall

And here we are, locked together
And here we are, falling from the sun
And here we are, locked together

Find our way is
Find our way
Find our way to fall
