

# Black Sunlight

## The Alchemist

Took the Haze to Church  
Frankincense and Myrrh  
The whole thing was a blur  
Laughed at first niggas politics absurd  
I ain't even answer just let the weed burn  
Unconcerned  
Spray ya perm  
Armand Hammer: Hagler N' Hearn  
Shorted 'em like Bear Stearns  
It's not an aberration, this how it work  
Chuckled at the investigation, niggas is nerds  
Cook the books with the bookworms  
Iridescent blackness  
Is this performative or praxis  
Are we talking about practice?  
Rock the kufi backwards  
Magic Negro, Wesley Snipes taxes  
Dark inside the Ibex with two ratchets  
African accents, American names like Dave and Patrick  
The game is the game, just gotta change tactics  
Revolvers to automatics, back to revolvers  
Nothing is static  
Black Bastards Negro Humor Laugh in a casket  
Yellow teeth, incisors flashin'  
Some nights the sun shines, just gotta catch it

Smile niggas  
Through trials rendered  
In my full expression  
Stressor

Pressures cooking then I got your message

Blessings  
Honor self  
Picking pockets  
Finding joy  
Blowing off the lint

With all that binds  
We deserve to be up out of our minds  
Black prioritize  
Cup runneth over what the heart provides.  
I got 5 on my shoulder  
Drawing closer  
In these darkersparring times  
Pardon mine  
Target  
Guarded eyes  
Free the captors  
Sliding thru her gap tooft  
Might not be no after  
I yield to where the path pulls  
Oh it's gonna getcha  
Caught up in a snafu  
I don't wanna riff blud  
I don't wanna explain self

I don't wanna constrict love  
I wanna grow kale  
I ain't never hoe'd myself to make the song sell
