

How you tryna say it's not enough?  
Got me upset, uh

How you tryna say it's not enough? Got me upset  
I smoke a lot bud, how I knew a lot of love left  
It's not a lot of us, gotta prove ain't lot of trust left  
I'm my father's son, I gotta poof, gotta thug less  
There's a God above, seen lot of roofs on lot of sunsets  
What I'm not in touch is obstacles and lot of bust-heads  
I be knotted up, he not the dude, it's lot of Funk Flex  
They tryna copy us, they not as smooth, he tryna jump steps  
They tryna body us, my poppa moved, I had to come next  
Got my body up from droppin' rules, I had to confess  
I was not in tune, droppin' juice I hadn't drunk yet  
Bless, droppin' jewels I hadn't thunk yet  
Where I slept is where the callous grew, harassing bunk beds  
For my breath, I gotta travel trough, laughed so much, dread  
For the bread, niggas crashin' too, we havin' much  
Yeah, it's death for a tragic few, we had it tucked, yeah

Where my UK niggas called a pack food, that's truth  
Ain't my mans, then I'ma tax you  
If you got problems, we can take this shit back to 9th grade  
Used to go body inside the bathroom  
But these days we fightin' bodies, so, nigga, act cool  
Spank that man for my honor, then I got the tattoo  
We ain't missin' when we walk down  
If we do, we double-back too  
Rappin' easy when you talkin' factual  
Must be hard to write a rap when you gotta make this shit up  
We been out here in these streets  
You got some time to get yo' pen up  
My akh in the pen stuck doin' chest and chin-ups  
Cupid don't shoot arrows, just .223s  
Fell in love with the block, concrete  
And when the money touch my hand  
Feel like the block love me  
I ain't geekin' for cheeks, I'm tryna touch me some breesh  
And split it with my dawg Mike B, yeah

And why are people in 1983 even concerned about this?  
I don't know, I think I've done  
I done many albums in my lifetime, and uh  
Some of them good, but some of them, some of them bad  
Some of them givin' people much inspiration  
And uh, some of them inspire people such ways, and uhm  
And they inspire people's spiritual layerin'  
The thing that's important is that, uhm  
As I said before, that I reach, whatever plateau I'm supposed to reach with  
that, innit?  
And my credibility is that aim number one  
And when I finally do have something to say that I feel...
