

Deja Vu

The Alchemist

People I was blessed with the talents of rhythm
(It's a form of music, It's in everything)
Uh, the sense of direction when it comes to clarity of music, I
listener appreciation
(Do what you feel you know? Then you can make other people feel
, feel it)
The same thing that created the tree, created me
The same element that creates the wind and the rain created wom
an
God is everyone and everywhere

Safe to assume that I had a breakthrough
I made reservations for two
Might feed your label to my dog like table food
These niggas the same, they all interchangeable
Different day, same shit, kid I'm having déjà vu
The snake got two faces like a Gemini
I'm way too player to not womanize (womanize)
Everything I said in a rhyme is sex being weaponized
Underneath cover like it's espionage (no one knew you were ther
e literally)
I made God of my likeness, pardon my niceness (I'm nice)
For me to line you don't need a barber's license (nope)
Might kick off your light switch, but my heart is righteous
As a artist I'm often slighted, y'all must be on that Barbra St
reisand (coked up)
High like the coke prices, sacrifice the goat as lifeless
Hoe said the homie gaslighting us, that's what she told a psych
ic
I was just gassing that old white bitch (gassing)
Listen this is clairvoyance (clairvoyance)
I brought the stick for the voyage (bring it)
Crest on the Gucci knit embroidered in my forties
I'm still looking boyish (yup), what's inevitable can't be avoi
ded
Disappointed, the snitch pointed
The Feds kicked the door of my joint but the brick was in the t
oilet
No OGs to give us pointers, we bending corners
Shorty could've been on the Hornets knocking down three-
pointers
The release is water

People always said that about me, I ignore it
So in the process you, you know that isn't in your group
You know to create you have to become selfish
Partner? I don't run into that

'Cause I just seen it, I got this whole idea of what I just seen in my head

Maybe a week before that I went shopping, record shopping
Pulled the record out, first record, do-do-
