## The Alchemist

Ladies and gentlemen, as you might've noticed  
We have commenced our descent into [?] airport

Touch it down  
Different sky  
I like different  
Now I like

Touch it down  
I'll be right

Uh, sitting on a dock watching the tide drift away  
Amsterdam, London, and Paris - we made a triple play  
Soon as we touch, they got us situated (What up?)  
Bottles of Jean-Pierre Robineux, got my peripheral all pixelated (Dizzy)  
The maestro on the balcony in the chateau  
Blowin' smoke and sittin' on a mountain from the cash flow  
Reel in the fish, rope down a stallion with a lasso  
Slash hustler, money from long range like a Splash Brother (From a distance)  
Utilizing the left brain, could've put money down on a neck chain (I did tha t)  
Calculating the gross, you tally the net gain  
From cutting lumber down (Mm)  
Ladies Gucci down in a summer gown (Woo)  
The pearl handle I wrap my thumb around  
Seven Escalades with the plates missing, the great escapism  
Lucid dreams staring at clouds while I'm day-trippin' (Starin' off)  
You stay slippin', I hold a microphone like my last name was Griffin  
And paint different, paint different

Very different  
I think I see

Basement library where I do my research  
That AMZ M-1-19 work  
Same speaking, weapons, dope, speed kills so fuck it, guess we is bro  
Up in here shifting gears, muffler blare, shawty scared  
We in some of the safest shit you could've bought  
In 1986, this four-door was fast as a Porsche  
Them niggas lost, it's not up to me to school 'em off  
We close though so I guess I could lay these jewels on y'all  
The home had led the patterns on the roof, my 64  
Ain't do that at the shop, he done that at my garage  
My girl don't aks no questions  
She know better than get involved (Very different)  
But she benefit from atrocities we commit  
Constantly killin' shit, tough to watch like "Schindler's List"  
Put three-piece rims on this fashion, we got season skips  
They send me prototypes soon as they dream this shit  
And it been like this

Very different  
What do you think, sweetie?  
Not sure  
I say, painting of what  
Painting of what?  
A painting of what

Different
