

## Robert Moses

### The Alchemist

This time we left the pedestals empty like Bamiyan  
Fitted the Bentley with the car bomb, bend the knee  
Rep the team Iwo Jima, Christ the Redeemer  
More Life  
Mike outside the arena  
The Rucker Jimmy and Cam runnin' out they sneakers  
C. Gutta, La Liga  
Willie Mays, wind at his back, frozen in friezes  
Project shadows deepen, rusting home plate plaque  
Locked the meteorite in a black box  
RIP murals but also fuck the opps  
Dead men tower over city blocks  
I built a church atop the synagogue  
Where you built your mosque  
Dead men sidestepping the morgue  
Pitchforks, gas reek from the torch  
Mummified eyes peep like a pit boss  
Rafael Edmonds III when they need another Ricky Ross  
Mandela smiling forever, what's clever  
Joseph Stalin stylin on 'em, who better?  
King Crimson out the guillotine  
You must not got the newsletter it's a new day  
Man has no property in man the dead have no say
