

# Joy Bang One Time

The Almighty

Like a serpent but got no where to slide  
Out makin' cars pretending how to live  
Her virgin fires been kissed so many times  
But hay man it's his to be wasted all the time

All the animals come out at night  
Snakes and lizards been sleeping in your bed  
Hanging out in the dollar hotels  
You've spent your whole life sitting on the jon

[Chorus:]

Hollywood will never learn  
Play with fire and you'll get burned  
Joy bang one time  
Gettin' high and feeling fine  
Joy bang one time  
Show me how you lose your mind

All alone, dead in the city  
You're doing horse child don't look too pretty  
Don't need no money cause it's heaven sent  
But you don't tell nobody it ain't cool to pay the rent  
One day you'll wake up wasted and done  
Look in the mirror and you won't see no one  
Just a crazy child who wanted to be free  
You did it once but now you won't let it be

[Chorus]

The lights go down  
And there's a haze of love  
You tell your lies to dark  
Cause it never gets enough

[Chorus]
