

# Black Magic

The Amazons

Tell me, baby  
Do you still feel the way you did?  
'Cause I can't tell, baby  
No, I can't tell what's in your head  
But I don't know where to turn  
But if you wanna' change your mind  
I'll take you and we'll run

Black magic, come on  
Just let me on now, I believe  
Black magic, come on

You know it's crazy, baby  
How I still see you in my sleep  
And I can't shift the way you're always on my mind, mind  
But I don't know where to turn  
But if you wanna' change your mind  
I'll take you and we'll run

Black magic, come on  
Just let me on now I believe  
Black magic, come on

Don't you let me at all  
When I've given all I've got to give  
Black magic, come on

Do you still feel the way you did?  
Do you still feel the way you did?
