

Holy Roller

The Amazons

Hide the feeling hide the reason
Are we not getting out alive?
If the God I know can hear them
Why can't I be still tonight?

I'm giving up the faith I've always known
We're breaking free from fear and rules and hurt

Blood running from my heart
Trying to find an end to fit the start
If all I knew was false
I'm gonna figure out if there's a pulse

Come the fire, come the evening
Come the answers to the lies
If the God I know could hear them
Why can't I be still tonight?

I'm giving up the faith I've always known
We're breaking free from fear and rules and hurt

Blood running from my heart
Trying to find an end to fit the start
If all I knew was false
I'm gonna figure out if there's a pulse

Blood running from my heart
Trying to find an end to fit the start
If all I knew was false
I'm gonna figure out if there's a pulse
