

I was running in and out of doors
And I was checking if the light turned off
I was waiting in the night, alone
For you
For you

So come on closer
Don't you wanna
See inside my shell?
So come on read my silence
My ultraviolet
Signs there's something to tell

And I was waiting for my phone to call
Or just some message that you cared at all
There's some rhythm in this silent song
From you
From you

So come on closer
Don't you wanna
See inside my shell?
So come on read my silence
My ultraviolet
Signs there's something to tell

So come on closer
Don't you wanna
See inside my shell?
So come on read my silence
My ultraviolet
Signs there's something to say

So come on closer
Don't you wanna
See inside my shell?
So come on read my silence
My ultraviolet
Signs there's something to tell
