Wait For Me

The Amazons

I can't shake the feeling that I'm under water
And I'm reaching out for something to hold on to

Will you wait for me, will you wait for me
Like you said you would, like you said you would
Moments fade away, into yesterday
Oh, that may be true, but not for me and you

Late night burning, one another
Red light running, undercover
Living like we're going under
Left me with the taste of summer

(Woah, woah)

Time slips through my fingers that are reaching for you
It's so divine, the pain, the ache that thrills you
The melody in your truth, and then it's gone

Will you wait for me, will you wait for me
Like you said you would, like you said you would
Moments fade away, into yesterday
Oh that may be true, but not for me and you

Late night burning, one another
Red light running, undercover
Living like we're going under
Left me with the taste of summer

(Oh, woah, oh, woah)

(Oh, woah, oh, woah) Left me with the taste of summer
I'm in love, I'm in love, taste of summer
(Oh, woah, oh, woah) Left me with the taste of summer
