

JESUS

The Ambassador

Yessir
It's that classic Official
But it's all about
Jesus (x3)
No doubt there's a God who sent
Jesus (x3)
I'm getting amped just thinking about Him

Father
Abba
The God of
Abraham, Isaac and Jacob
You're outside of
All you made
You say we're the clay
And You're our Potter
We can't say
Why'd You make us this way
You're our Sove-reign
And You reign over kings
You're the King of the kings
Your rock hearts and spark singers to sing
Our hearts lean
In the wrong direction
Took a crossbeam to redeem
Plus You've got a strong election
No vest but oh yes
You give strong protection
No stress You don't sweat
You're so calm You're sitting
On a throne in Your throne room
There's strong reception
For the prayers of Your people
Now that's a strong connection
You hear me now
Since the Son's palms were stretched and
We take the 150th Psalm's suggestion
Praise
You've got a love for Your Son that's unequal
Your government is one
You don't run and it's unsequeled

Jesus (You sent a Son)
Jesus (For the sinner)
Jesus (We give honor to the One Who sent)
Jesus (You sent a Son)
Jesus (For the sinner)
Jesus (Give honor to the One Who sent)

Jesus
The Son
Sent-One
The Word
Logos
Got a few names
And then some
You heard Agua?

I'm not
Sure if you have
So I've gotta
Put Him and His ways
On center stage
I'm like tadda!
I try to tell the people on the block
They don't know You
They think Your hair's blonde
And Your two eyes are so blue
No two
People are the same
This is so true
But those two
People get Your reign
This is so You
Cause this is grace
And I found that Your
Grace is special
But its common
Like that Chi-town rapper
You've got holes in Your hands
Same hands with them holes in them
Gotta hold of control on this land
Man You've got the mouldin'est hands
Hands mould human souls
Plus the body

The soul grows in the plan
Once to take on flesh
Then live sinless
Died and rised
To save men and women
Then step yep!

Jesus (Yes You are)
Jesus (Yeshua)
Jesus (We give honor to the One He sent)
Jesus (Yes You are)
Jesus (Yeshua)
Jesus (Give honor to the One He sent)

Last but not least
The Paraclete I speak on
Full Diety
But often the people sleep on
The low-key invisible
Holy Spirit Who keeps blowing
He gives life
Through the Holy Spirit we're reborn
For some this is just a reintroduction
To all this God-centeredness
We ain't accustomed
He interrupts them
Drops belief in our guts in
Light of this faith I guess you'd say
We got a trust fund
He's called Advocate
With no magic kid
He does miraculous acts
He doesn't abracadabra it
Some call Him it
Or a power

And not a Person
We call Him
A powerful Person
We've done hours of searching
We can grieve Him
And lie to Him
The Scriptures He breathed and
Opened our eyes to em
We can live or die through Him
We can give a cry to Him
Hands in the air
Groans go up
And come back
Answers to prayer
Oh I'm giving you some extra bars
Your humility's killing me
You willingly seem to let applause
Go to the Father and the Son
Both described as the Savior
You always point to Jesus
And You slide off the radar
You enter in a heart
That is wired for chaos
With just a little spark
New desires are there
Salvation get's applied
You revive from the graveyard
I mention You as God
Cause You are
And we praise You

Jesus (You're a Fresh Wind)
Jesus (You're refreshing)
Jesus (You give honor to the One He sent)
Jesus (You're a Fresh Wind)
