

The Wait

The American Analog Set

On the first day
I was aching
It was okay
You were faking
It's not worth it
You just don't try
Love so perfect
You just get by

Now it's all day
My hands are shaking
It's on the airwaves
And the news is breaking
It's not worth it
Just don't try
Through the nineties
We just got by

Now I'm waiting for you
Like a life that is passing you by

It's not worth it
You just don't try
Love so perfect
You just get by

It's not worth it
You just don't try
Through the nineties
We just got by
It's not worth it
You just don't try
