

## Back On You

The Angels

What you need  
What you get  
Never worry where it's coming from  
Bankcard, live hard  
All the money is gone

Listen to you  
You've always got something to say  
Taking it all  
Never giving nothing away  
What did you expect  
When everything you do  
Comes back on you

Fantasy  
Sweet dream  
Lazy body and your mind's out to play  
You may leave but you'll never get away

Now you say you're taken by surprise
