

Easy Prey

The Angels

Sitting part-time filled, your easy prey
Nothing but the fear is here
Though you pray for shelter, relieve your heart
Protection don't exist at all
Everybody knows about it
Everybody else but you
They all think it's real, and you're nothing
But they'll never understand, its you

Oh, everybody knows about it
Everybody else but you
They all think it's real, and you're nothing
But they'll never understand, its you
