

## Gonna Leave You

The Angels

Your flashing eyes are a beacon light  
That guides the jet-plane in the night  
I just want to be with you

Pick me up when I'm down  
Feel so good when you're around  
I just want to be with you

It's not blue the way it's been  
It's not night or between  
It's not guilt at feeling free  
Takes much more to conquer me  
I just want to be with you

There's no place, no person left  
Don't want to be nobody else  
I just want to be with you darling  
I just want to be with you darling
