

Invisible Man

The Angels

Love like living lava flows
Everywhere my woman goes
Faces like the living dead
On Oxford Street they're easy led

All my life I've been running uphill
Just to keep my world from standing still
The twisted truth I can't ignore
That love is held in place by war

I take a walk down lonely street
Where neon lights and midnight meet
She haunts me like a Siren's kiss
She doesn't know that I exist
But I can see

The invisible man
The invisible man
That's what I am
Oh that's what I am
The invisible man

Love like living lava flows
Everywhere my woman goes
She speaks to me of lovers' scenes
And Oxford Street and all its dreams

(She says) "Come take a walk down lonely street
Where neon lights and midnight meet
Past the bars and the bondage boys
We'll surrender to the noise"
She says she saves it just for me
Just one look is all I need
And I'll be free

The invisible man
The invisible man
That's what I am
That's what I am
The invisible man

The invisible man

The invisible man
Yeah, that's what I am
The invisible man
That's what I am
The invisible man
Just one look, oh yeah
Just one look, just one look
