

## Poor Baby

The Angels

Home movies, cold U.V.'s more groovies  
Waiting for a ticket of leave  
Some learners get nervous, the perverts  
All want to play with Eve  
Sat back to look at your cracked actors  
Drowning in a sea of smiles  
Blue doorways lead four ways they always  
Said you were a lonely child

Poor baby, poor baby  
Poor baby, too tough to talk to me

Inspection, correction, rejection  
Caught in a cul-de-sac  
Ignition, collision, admission  
That you want to double back  
Poor baby, don't listen, had visions  
What life is really like  
You waited, debated, delayed it  
And then you shut your eyes

Poor baby, poor baby  
Poor baby, too tough to talk to me

You found out, your big out leaves no doubt  
You've lost your head in the skies  
Striped lady, she's crazy, picks daisies  
She's got a neon eye  
Give money, it's funny you dummy  
Baked your cake and ate it too  
The truth is that sometimes  
Just one time can be enough with you, yeah

Poor baby, poor baby  
Poor baby, too tough to talk to me  
Poor baby, poor baby  
Poor baby, too tough to talk to me  
Poor baby, poor baby  
Poor baby, too tough to talk to me

Poor baby
