

# What The Hell

## The Angels

I was watching TV, looking at the news  
It's 4am, a change is due  
The Master teacher, the devotee  
I see a lot of faces but they never see me  
I read the papers, so doctrinaire  
I look in the mirror but I'm not there  
Then along came a man who said it's all true  
Now I'm left alone with you

What the hell is going on  
What the hell is going on

The princess dreams of wedding bells  
And then she awakes to a life in Hell  
Grown up wrong, a cloak of shame  
And now she's looking for somebody to blame  
In the secret world of the bureaucrat  
The Judas priest feeds the dirty rat  
Then along came a man who said it's all right  
Just keep it out of sight

What the hell is going on  
What the hell is going on

The Mystery Men, making wars  
Talk like saints but act like whores  
Hail the New World Order  
The brotherhood of man  
In God we trust the blind faith plan  
They've let out all the inmates  
And thrown away the key  
It must be time to leave

What the hell is going on  
(The Mystery Men, making wars  
Talk like saints but act like whores)  
What the hell is going on  
(The New World Order  
The brotherhood of man  
In God we trust the blind faith plan)  
What the hell is going on  
(They've let out all the inmates  
And thrown away the key  
It must be time to leave)  
What the hell is going on
