All Night Long

The Animals

I ain't got nobody In this world alone I have nobody to love me Give me my hope

Want you to love me Want you to love me I want you to love me baby Love me all night long

Just like a rattlesnake Crowded all in the mud If I love you baby Say that I'm no good

I want you to love me Come on & hug me I want you to love me baby Love me all night long

Alright Tell me baby

If you love me baby I'll tell you what I'm going to do I'd rob & I'd steal, I'd kill everybody To get some love from you Want you to love me Come on hug me I want you to love me baby Love me all night long
