

## Again

The Anix

Something tells me we're not here to stay  
Nothing forcing me to find the way  
When it comes out  
Will I feel again?  
If it starts without  
Will I be the same?

Could this be forever?  
I don't know  
Tear into each other  
Still we go  
Again and again  
If we stay together  
Can we go again?

Gravel pulls me down more every day  
I see the push on you to find a way  
When it comes out  
Will I feel again?  
When it comes alive  
Will I be the sane?

Could this be forever?  
I don't know  
Tear into each other  
Still we go  
Again and again  
If we stay together  
Can we go again?

Could this be forever?  
I don't know  
Tear into each other  
Still we go  
Again and again  
If we stay together  
Can we go again?
