

Dangerous

The Anix

It seemed the other day
I met and had you
So new and the way you looked at me
I fell apart at the first sight
I don't know how I felt before you
I saw you dancing into the music
I know you're dangerous in a good way
I felt it when we touch
Over and over
You're my everything
Novocain to numb me
I know it's right
It's meant to be
Love surrounds me
Hard to see
All the days we spent alone
The rhythm in the action leads the way
Every time that I'm right here with you
I come alive just to see you this way
It's difficult not to want you
Every time you put your arms around me
