

Disappear

The Anix

Safe and hollow
Twist and follow
Wait in shadows
Until tomorrow

How long
How long do you want me?
How long, I'm missing you
How long till you disappear?

Stray and borrowed
Built for sorrow
No afterglow
Born undertow

How long
How long do you want me?
How long, I'm missing you
How long till you disappear?

I've been away too long without you
Human emotions automated
Object electric pulses cut through
Mastermind complex activated

How long, diffused and swallowed
How long do you want me?
How long, I'm missing you
How long till you disappear?

Diffused and swallowed
I'm missing you
Diffused and swallowed
I'm missing you
