

## Double Zero

The Anix

Your secret came out as you rolled your sleeves  
You played the damsel then sharpened up your teeth

A same old story came to an end  
Frustration has paid your debt  
You see the world in black and white  
All the colors made you blind  
And now you're shadowed in regret

A false delusion grabbed you by the wrist  
Your luck has faded until it won't exist

A same old story came to an end  
Frustration has paid your debt  
You see the world in black and white  
All the colors made you blind  
And now you're shadowed in regret

A same old story came to an end  
Frustration has paid your debt  
You see the world in black and white  
All the colors made you blind  
And now you're shadowed in regret
