

Ex

The Anix

I always had this complication with the ordinary
Defying walls are closing in
And you always had this separation when you feel sincerity
Troubled times are near the end

The days all go by and still you won't go away (4x)

So just leave, say goodbye
Another ex to despise
Don't pretend we're still fine
Not this time
All move on, you won't change
I think it's better this way
With you out of my life

So just leave, say goodbye
Another ex to despise
Don't pretend we're still fine
Not this time
All move on, you won't change
I think it's better this way
With you out of my life

I despise the overrated distance that you're reaching with me
See right through you to the end
And you always had this separation when you feel sincerity
Troubled times are near the end

The days all go by and still you won't go away (4x)

So just leave, say goodbye
Another ex to despise
Don't pretend we're still fine
Not this time
All move on, you won't change
I think it's better this way
With you out of my life

So just leave, say goodbye
Another ex to despise
Don't pretend we're still fine
Not this time
All move on, you won't change
I think it's better this way
With you out of my life

So just leave, say goodbye
Another ex to despise
Don't pretend we're still fine
Not this time
All move on, you won't change
I think it's better this way
With you out of my life

So just leave, say goodbye
Another ex to despise
Don't pretend we're still fine

Not this time
All move on, you won't change
I think it's better this way
With you out of my life
