

# Fight The Future

The Anix

I can show you the way down  
Let you see if you want to  
There's no other way around  
To feel inside you  
And all I ever wanted  
Was for you to come unglued  
And all I confronted  
Never seemed to come true

I can't feel no more  
It feels like I'm walking in reverse  
With no one behind me  
I can't see no more  
I'm blinded by what's become of us  
I fight the future

Now I'm hanging on the wall  
No knife to cut down  
You could follow my call  
But you end up knocked down  
I've seen it all before  
I know my way around  
I can't beat the score  
With my feet pinned down

I fight the future

I can't feel no more  
It feels like I'm walking in reverse  
With no one behind me  
I can't see no more  
I'm blinded by what's become of us  
I fight the future  
I fight the future
