

Hideaway

The Anix

Come over here, you take control
Come, shake my world around
I won't tell you how to feel if you don't
I cannot prove that this is real if you won't

Is there nothing inside? I found you searching
For a new place to hide but suffocating
You fell into a trap, this world
If you take me inside we'll hide away

Control illusions, can't see yourself
Your world is upside down
I won't tell you how to feel if you don't
I can prove that this is real if you won't

Is there nothing inside? I found you searching
For a new place to hide but suffocating
You fell into a trap, this world
If you take me inside we'll hide away

Never gone, be someone
Never gonna become one of them
Never gone, be someone
Never gonna become one of them

Is there nothing inside? I found you searching
For a new place to hide but suffocating
You fell into a trap, this world
If you take me inside we'll hide away

(Can't find a way to get away)
(I need to leave this town) We'll hide away
(Can't find a way to get away)
(I need to leave this town) We'll hide away
(Can't find a way to get away)
(I need to leave this town) We'll hide away
(Can't find a way to get away)
(I need to leave this town) We'll hide away
(Can't find a way to get away)
(I need to leave this town) We'll hide away
(Can't find a way to get away)
(I need to leave this town) We'll hide away
(Can't find a way to get away)
(I need to leave this town) We'll hide away
(Can't find a way to get away)
(I need to leave this town) We'll hide away
