

# Interference

The Anix

Are you scared to see me undisguised?  
Words won't matter when we're hypnotized, unshaken by your spell

Caught you once, I won't fall asleep now  
Still afraid but you're all I need now  
Are you remote controlled? Interference  
You're infinite mine, I won't let go now  
(Interference)  
(Interference)

I stay awake to see you crystallized  
On the edge but now we're magnetized, underneath your shell

Caught you once, I won't fall asleep now  
Still afraid but you're all I need now  
Are you remote controlled? Interference  
You're infinite mine, I won't let go now  
Caught you once, I won't fall asleep now  
Still afraid but you're all I need now  
Are you remote controlled? Interference  
You're infinite mine, I won't let go now

You're infinite mine, you're infinite mine  
You're infinite mine, you're infinite mine, interference  
You're infinite mine, you're infinite mine, interference
