

Live Forever

The Anix

I'm looking for an empty road
To get lost on
Forgot my mind, I can't decode
What I'm doing wrong

In here our own endless night
No rest, it's our Illusion
Next stop unknown, we'll be alright
Next time we'll live forever

Swerving fast I overload
And crash into
I lost my will, my times borrowed
I'm coming unglued

In here our own endless night
No rest, it's our Illusion
Next stop unknown, we'll be alright
Next time we'll live forever
In here our own endless night
No rest, it's our Illusion
Next stop unknown, we'll be alright
Next time we'll live forever

In here our own endless night
No rest, it's our Illusion
Next stop unknown, we'll be alright
Next time we'll live forever
In here our own endless night
No rest, it's our Illusion
Next stop unknown, we'll be alright
Next time we'll live forever

Forever, forever
We'll live forever, forever

In here our own endless night
No rest, it's our Illusion
Next stop unknown, we'll be alright
Next time we'll live forever

Forever, forever
It's our illusion
We'll live forever, forever
It's our illusion
