

Overdrive

The Anix

Daylight can't hide
Melt like gold and feel the insides burn
On Overdrive
Cinching blindfold, nowhere else to turn

And every night I call in silence out your name
Just to survive
And every time I breathe I feel you light my flame
Our worlds collide
And nothing else can be as violent as this game
On overdrive
And every night I feel you dreaming just the same
Until we both arrive

This night's alive
Don't let us drown and turn into dust
On Overdrive
We won't slow down until we both combust

And every night I call in silence out your name
Just to survive
And every time I breathe I feel you light my flame
Our worlds collide
And nothing else can be as violent as this game
On overdrive
And every night I feel you dreaming just the same
Until we both arrive

On Overdrive
On Overdrive
On Overdrive
On Overdrive
On Overdrive
