

Parasite

The Anix

Hide me away, I'll come for you
Cut me up, I'm a parasite
Falling down, still above you
No second chance, gone at the speed of light
(Gone at the speed of light)

You're out of control
Me and you are magnetic
They can't tear us apart
We're imperfect together

Nowhere to run, I will find you
There's no escape in this fever dream
Don't turn around, I'm right behind you
'Cause out in space no one can hear you scream

You're out of control
Me and you are magnetic
They can't tear us apart
We're imperfect together
We're imperfect together

You're out of control
Me and you are magnetic
They can't tear us apart
We're imperfect together

Cut me up, I'm a parasite
Cut me up, I'm a parasite
Cut me up, I'm a parasite
Cut me up, I'm a parasite
