

Shadow

The Anix

Paper wings
Learn to fly
Glass strings
Black eyes

I feel like I should run
Until the void that you left here closes up
Wait for you
Until the lights go on forcing everyone out

Hello, goodbye
So nice to know you
I'm the shadow in your eyes
Don't fall for me
(Don't fall for me)

Silver tears
Golden skies
Hope reappears
In your eyes

I feel like I should run
Until the void that you left here closes up
Wait for you
Until the lights go on forcing everyone out

Hello, goodbye
So nice to know you
I'm the shadow in your eyes
Don't fall for me
Hello, goodbye
Let me remind you
(Let me remind you)
I'm the shadow in your eyes
Don't fall for me
(Don't fall for me)

You've got me coming
Heartbeat still running
You got me reaching stars tonight
Tonight

Hello, goodbye
Let me remind you
(Let me remind you)
I'm the shadow in your eyes
Don't fall for me
(Don't fall for me)

I feel like I should run
Until the void that you left here closes up
Wait for you
Until the lights go on forcing everyone out
