

# Sideways

The Anix

There's a place  
Inside  
Forever broken  
It's yours and mine

I used to know you  
I thought you had my back  
It's sad to see you  
Falling off the track

You take me down  
Then you shut down  
Always  
Run far away  
Now I'm face down  
In this ghost town  
Sideways  
Run far away far away

So you feel  
All alone  
Bruised and broken  
And overthrown

I used to know you  
I never got you back  
I tried to show you  
But now I bleed in black

You take me down  
Then you shut down  
Always  
Run far away  
Now I'm face down  
In this ghost town  
Sideways  
Run far away far away

I used to know you  
I used to know you  
I used to know you  
I thought you had my back

You take me down  
Then you shut down  
Always  
Run far away  
Now I'm face down  
In this ghost town  
Sideways  
Run far away far away

You got me going sideways  
You got me going sideways  
Far away  
You got me going sideways  
You got me going sideways

Far away far away  
You got me going
