

Stuck in a Phase

The Anix

Now I'm stuck in a phase I realize was you
Nothing's quite wrong, can we turn around
I wish you made a move in the other way
Maybe you could see what you wanna be

Finally I found your secret
Nothing in the way, you're less of me
All the while you make me wonder
Everything I know is far from gone away

I'm falling face down cus what you did to me
Nothing ever hurts till you go away
I'm making you a real life mistake
Maybe then you'll realize everything

Finally I found your secret
Nothing in the way, you're less of me
All the while you make me wonder
Everything I know is far from gone away
