

# The Surface

The Anix

You understand me  
Put my mistakes aside  
Stop walking close to me  
Its what the truth is

Moving away from this  
Dont let it surface again  
Everything is different dont miss  
A second with me

\*Chorus\*

And we're finding out tonight  
Dont wait till next time  
Its up to you  
Not easy to  
Follow you

True things come around to you  
Silence is cancer  
Do what you want me to do  
And the dust cant surface
