

# Through You

The Anix

Let me comfort ways  
I need you with me  
But I can't get you to  
Thinking my direction  
Days went by in its twisted situation  
You say that I'm to blame  
The one with accusations

Walk out  
Give me another  
Bending excuse  
I know why I try to see right through you

(See right through you)

You say we're complicated  
But is true, just not corrected  
You stopped returning my calls  
Days went by in its twisted situation  
Easy to walk away  
When someone else to blame

Walk out  
Give me another  
Bending excuse  
I know why I try to see right through you  
Give me another  
Bending excuse  
I know why I try to see right through you

(See right through you) (3x)

Walk out  
Give me another  
Bending excuse  
I know why I try to see right through you

Walk out  
Give me another  
Bending excuse  
I know why I try to see right through you

Walk out  
Give me another  
Bending excuse  
I know why I try to see right through you
