

But the days will come and go
But it feels like we're alone in the fire
From the fire
We can make it through
As long as I have you, desire
Avoid crossfire

We can disappear
Everlasting together
Through the atmosphere
Never let you go
Vanishing into oblivion
All alone

We will never fade away
You and I were meant to hide away
Into surreal
We can watch this knuckle town
But we just can't get around our way
Adjust in a play

We can disappear
Everlasting together
Through the atmosphere
Never let you go
Vanishing into oblivion
All alone

We can disappear
Everlasting together
Through the atmosphere
Never let you go
Vanishing into oblivion
All alone

We can disappear
Everlasting together
Through the atmosphere
Never let you go
Vanishing into oblivion
All alone

We can disappear
Everlasting together
Through the atmosphere
Never let you go
Vanishing into oblivion
All alone

Never let you go
