

# Without You

The Anix

I walk alone at sleepless nights  
To keep myself from feeling  
You said I never win this fight  
But that won't stop me dreaming

It feels like I'm walking backwards  
Hopeless without you  
Still trying to find the answers  
Hopeless without you

I never knew someone like you  
And now I can't let you go  
I've got to push till I break through  
Waiting for tomorrow

It feels like I'm walking backwards  
Hopeless without you  
Still trying to find the answers  
Hopeless without you  
Hopeless without  
Hopeless without  
Hopeless without you

There's a hole in your heart  
Wish I could mend it right  
I've seen the damage from the start  
I'll protect you tonight

Hopeless without  
Hopeless without  
Hopeless without you

It feels like I'm walking backwards  
Hopeless without you  
Still trying to find the answers  
Hopeless without you
