

## Outro In No Minor

### The Anniversary

Far from our homes  
The heat will flash behind the dash  
It gathers - such winds blow cold  
The fiction of your life's love so deep in the blood  
Taking pictures of all of this  
Write down the history in the case that we are missed

Far from our homes  
The heat will flash  
It gathers - such winds blow cold  
The fiction of your life's love so deep in the blood  
Taking pictures of all of this  
Write down the history in the case that we are missed  
Throw out the medicine - our lives will enhance  
Search out complacency we'll never miss the dance, never the dance

The end of this night we'll remember - it redesigns our lives [eight times]
