

Raise A Little Hell

The Answer

Call it for the ride
Call it just to get away
Something redefined
I hear something new everyday
Electric shapes
All around
Break down the barriers of hate on the ground

Won't you raise a little hell for me
Raise a little hell
Keep digging up that dirt on me
Won't you raise a little hell

I can taste your secrets
You're looking high and low
All the mixed emotions
You know you got to let them go
Electric sounds
Fever starts to grow
Break down the barriers of hate on the ground

Won't you raise a little hell for me
Raise a little hell
Just keep digging up that dirt on me
Won't you raise a little hell for me

Break down the barriers of hate on the ground
Neon lights and moonlight clowns
Dig it all up now when you're on the ground

Won't you raise a little hell for me
Come on, raise a little hell
Keep digging up that dirt on me
Won't you raise a little hell (raise a little hell for me)
Won't you raise a little hell (raise a little hell for me)
Won't you raise a little hell
