

# Spectacular

## The Answer

Don't forget how it feels when we are young  
That freedom fight that can lead us far from home

Oh, we could be spectacular  
Yeah, we could be spectacular

I swim for shore, let the ocean cool my blood  
I once was told, I will be what I become  
So ask me straight, am I prepared to fade inside  
I tell them, here's the facts, we are born to live this life

Yeah, we could be spectacular  
Oh, we could be spectacular

We all could be whatever it is we think we are  
They might think it's easy, but who are they to judge  
Reactionize and criticize but I will bear no grudge  
The words are empty chambers, the bullets leave no holes  
Ammunition force contrition,  
Ain't got a heart but they got a soul  
Ain't got a heart but they got a soul, no

We could be spectacular  
Yeah, we could be spectacular  
We all could be spectacular, oh  
I know that we could be spectacular  
(We could be) spectacular  
(We could be) spectacular
