

## Tongue Tied

### The Antlers

Here we are, tongue tied  
Before we collide  
Here we are, tongue tied  
Before we collide

Here we are, tongue tied  
Before we collide  
Before the dawn breaks  
Before we untie

Here we are, tongue tied  
Before we collide  
Before the dawn breaks  
Before we untie  
Before we are tired  
Before we're alive  
Long before you change your mind

That's where it starts  
That's where it starts to come clear  
That we are one

Here we are, tongue tied  
Before we collide

Before the dawn breaks  
We're all out of time  
Maybe it subsides  
Before we align  
It's long before you change your mind
