

Mission Bells

The Apache Relay

I don't know how to help you out, to help you out.
So if you want to, you can let it out, you can let it out

So take it out on me
Take it out on me
No it wont change a thing
Take it out

And I will hold you,
If you want me to,
If you want me to.
And I will love you.
Theres nothing you can say,
Theres nothing you can do.

So take it out on me, take it out on me
No it wont change a thing, take it out.

Take it out on me,
Take it out on me,
Cast your sins into the sea
Take it out.

Say what, say what you need if it sets you free.
The bulls eye, the bulls eye is on my head.

So take it out on me,
Take it out on me,
No it wont change a thing.

So take it out on me,
Take it out on me,
Cast your sins into the sea,
Take it out
