

Set Me Free

The Apache Relay

Started, we started in disconnect. I don't know where you're coming from.

And when did you sink in, your so contagious. I, no I don't want to find a cure.

It sets me free like I have never known,
It sets me free, oh yea.
It sets me free, well I have lost control.
It sets me free, aw yea.

These moments, these minutes feel like hours. I, I wish you would walk through my door. Anticipation, my mind is racing, no I, I don't want to find a cure.

It sets me free like I have never known,
It sets me free, oh yea.
It sets me free, well I have lost control.
It sets me free, aw yea.

Well please don't, oh please don't ever go.
Cause I have, well I've been on my own for far too long.
Oh please stay for my soul, oh please say oh please say God you know just what to do with me.

It sets me free like I have never known,
It sets me free, oh yea.
It sets me free, well I have lost control.
It sets me free, aw yea.
