I don't know what to say you, but I guess that's alright I haven't felt way since our final Friday night I took you to the airport and you got on that plane Away from here, away from me, away from all the pain

It's ok, I understand, I would've done the same
Things did not work out for us, and we are both to blame

But I will always love you with everything I've got And I will always be there for you, no matter what We will always have Paris, remember that Always have Paris

I tried to write you letters but couldn't find the words Guess everything I'd write to you would make us both feel worse I drove by all the places that remind me of you The best of times, the worst of times, the stuff that we went t hrough

I still can't believe that we're an ocean apart
I'll always have a special place for you here in my heart

But I will always love you with everything I've got And I will always be there for you, no matter what We will always have Paris, remember that Always have Paris

I still can't believe that we're an ocean apart
I'll always have a special place for you here in my heart

But I will always love you with everything I've got And I will always be there for you, no matter what We will always have Paris, remember that Always have Paris
